

## HAZELTINE ONCE MORE HEADS RED CROSS

(From Friday's Daily.)

Much good work has been accomplished by the Yavapai county Chapter of the American Red Cross, under the chairmanship of M. B. Hazeltine. A meeting of the Chapter was held recently for the purpose of electing officers and while Mr. Hazeltine desires to be relieved of this responsible post, yet he was finally persuaded to "stick to the guns" until the close of this year. As a result all of the old officers remain at their posts, Mrs. Goldwater as vice-chairman; R. N. Fredericks, as treasurer; and Miss Anna Campbell Jones as secretary. The executive committee is composed of the above named officers and Mrs. Wells, Mrs. George E. Meany and Frank Brown. The committee chairman will stand as before.

The home service work of the American Red Cross will continue not only through the period of demobilization but also as a peace time activity and will be expanded in some communities to include others besides the families of soldiers and sailors. This has been decided at the National headquarters after a recent conference of directors of civilian relief work in the various divisions and in response to urgent requests which came from all over the United States. This desire for home service work to continue and expand came particularly from communities where there are no other organized agencies for social service.

In their plans for the future, the Red Cross officials are especially concerned to see that the service to soldiers' and sailors' families shall not be impaired. They will adhere to the present policy of giving help only to those who ask for it and never going where the offer of assistance is unwelcome. There will be also a scrupulous care to avoid duplicating or interfering with the work for social betterment by any other agencies.

The work of Frank G. Brown as chairman of the civilian relief is commendable to say the least. This character of work is of such an intimate degree that it is difficult to give such publicity, but a brief summary of this branch of the chapter's activities as outlined by Chairman Brown was proof conclusive of the good which is being done.

Miss Helen E. Walker, supervisor of the Home section of the Pacific Division of the American Red Cross, spent Wednesday and Thursday in Prescott conferring with the workers of this chapter.

## ANOTHER SILVER OF EARLY DAYS HAS BEEN REVIVED

(From Thursday's Daily.)

Of the interesting mining movements under way in this field, in which the booming silver days of over a third of a century ago are recalled, the reviving of the famous Billy Johnson on Turkey creek, near Goodwin, by R. C. Heuston, is occasioning comment in the above field. Recently this property has entered the producing class and its high grade chloride product determined in new workings naturally rekindles lively interest in the belief that this mine may repeat its past record.

Mr. Heuston has no associate owners, and acquired the group only a short time ago, stating he had kept an eye on the ground when silver was 50 cents, and the coming back of the metal to a dollar an ounce found him on the ground developing. The old workings were found in such a dilapidated condition as to be impracticable to reopen, and he selected another zone on the system to explore that has been attended with gratifying results. The first shipment of a five ton batch will be made next week to be followed by others, all of a high grade content.

Mr. Heuston will soon begin assorting the original dump that accumulated in the 80's and this product also will be shipped. The Johnson is situated near the station of Goodwin, and is in the heart of the famous silver belt of Turkey creek.

## GOVERNOR IS PLEASED AT PIONEER'S HOME

(From Thursday's Daily.)

Governor Campbell expressed his complete satisfaction with the management of the Pioneer's Home under the charge of Superintendent and Mrs. Shea, after an all day inspection of that institution yesterday. The governor was accompanied by his rounds by Chairman Andrew Baumbert Jr., of the commission of state institutions, who came from the Arizona Normal at Flagstaff to look over the home.

"Things are in good shape at the home," the governor said. "The institution is being run satisfactorily by Mr. and Mrs. Shea. I talked with most of the guests, many of whom are personal friends, and they all agree that everything is being done for their comfort and convenience." The governor arrived about mid-

night Tuesday night and went directly to the home of his mother, Mrs. Daniel Campbell on South Alarcon street. This was his first visit with his people in several months, and he regretted exceedingly being called to Phoenix for a conference, and having to cut short his stay. He left for the south at 4:20 this morning.

The governor said he was feeling fine, although he appeared to be thin and a bit tired. He has been engaging most actively in straightening out the affairs of the state, and the labor has proven strenuous.

Owing to the shortness of his stay and the fact he wanted to spend as much time with his family as possible, the governor was unable to meet many friends whom he wanted much to see. He saw some, however, and accepted an invitation from brother Elks to attend the May Day ball, to be given as usual this spring.

Later, he intends coming to Prescott with State Engineer Thomas Maddock, to go out and look at the work on the Jerome-Prezcott short line road. He said Frontier week would find him lined up with the crowd at the great summer celebration.

## JUDGE STORK'S ORDER DELAYS QUEEN SUIT

(From Thursday's Daily.)

Judge Sweeney, when he took the stand Tuesday that it was right and proper to do everything possible to speed the trial of the big copper company, case did not count on old George D. Stork, Judge Stork and the doctor entered an order that had the effect of vacating all entries in the minutes of the Superior Court of Yavapai County, State of Arizona, continuing the case to 9:30 a. m. April 9, 1919 when they ordained the arrival of a baby at the home of Juror Frank Robinson early yesterday morning.

The father held that his presence at home was much more necessary than his attendance at court, and a number of the attaches and attorneys, being parents, agreed with him. Although the visiting counsel for the Arizona Binghamton, Judge E. W. Lewis and George Purdy Bullard are anxious to return to Phoenix as soon as possible, they were forced to see the merit of the argument and consent to a delay. There was no morning session on the case of the Copper Queen's suit for \$118,000 against the Binghamton. After lunch, counsel visited the court in chambers and discussed proceeding with eleven jurors in the box, but it was finally agreed that it would be better to await the return of Mr. Robinson to his court duties. Under the law, the case could have gone forward minus one juror, but for the sake of the record and in order to keep as many minds on the problem as possible, it was decided to wait until this morning, in the hope that the proud father would be recovered sufficiently to fix his attention on such minor matters as ore shipments and contracts and payments and alleged wrongs and counter allegations and all such like.

## TROPHY TRAIN TO BE HERE FOR LOAN MAY 1

(From Thursday's Daily.)

The Victory Liberty Loan Trophy Train, which leaves San Francisco at noon Saturday, will be out 29 days and will tour California, Arizona and Nevada, making 115 official stops. It will be in Prescott on Thursday, May 1.

The itinerary, as announced by Chairman Allen Chickering, Director of the Speakers Bureau, shows that this train load of wonderful exhibits will cover 5,625 miles while on its mission of education and inspiration. It will reach practically every city and town of importance in the three states, and in each, not only will display the relics which have been brought from France, but also will be the center for patriotic programs.

The train is being assembled in San Francisco and all of the exhibits, with the exception of the whipper, will be on board the morning of the starting day. Shortly before 12 o'clock the train will be moved to a position on the Belt Railroad in front of the Ferry building. There the veteran tank operators who are to have charge of the tank exhibitions will drive their charge aboard the train.

## "SPOTTER" SUIT IS REOPENED ON MOTION

(From Thursday's Daily.)

Back to the fore came the contest between Yavapai County and the Thiel Detective Service Corporation, when Robert E. Morrison filed a motion to set aside the judgment on stipulation, that had been entered on December 31, last. The reopening of this warmly fought contest over the payment of liquor spotters, is a possibility as a result of this move.

Mr. Morrison's motion reveals a rift in the county administration, over the payment of the Thiel company for the services of operatives who were largely employed by Sheriff Joe Young to detect bootleggers. The company put in its bill for \$7,200.34, but the old board of supervisors rejected it on the ground the expenditure had not been authorized by it. The agency then sued for the amount. It is alleged in the motion that F. L. Haworth, then county attorney and Perry M. Ling, his assistant, entered into a stipulation with attorneys for the plaintiff, that they had no right to enter, inasmuch as it was without consent of the

board of supervisors that a compromise should be effected. Haworth and Ling signed up with Anderson and Ellis, and Clark and Clark, representing the Thiel agency, for a stipulated judgment for \$6,772.84. The new board of supervisors got to checking things up and found the judgment for this sum. They decided that because the cause had never come on regularly for trial, they hadn't had a proper run for this case, so they employed Mr. Morrison as special counsel, to initiate a move to block the payment of the judgment if it was possible.

## SOME LEGAL TANGLES

Neil C. Clark, present county attorney, was a member of the firm that represented the Thiel agency up to January 1, when business connections with the detectives are said to have been severed.

The Morrison motion flatly accuses the former county attorney of having proceeded in the matter of the stipulation without the "knowledge, consent or acquiescence of the board of supervisors" and "in direct opposition to the desire and wishes of said board." The minutes of the board, duly setting forth its objections to payment of the bill, the motion recites, clearly defines the attitude of the board.

The motion goes on to attack the right of Sheriff Young to hire the detectives in the first place. He had no power to bind the county for payment for such purposes, it is alleged. Furthermore, the Thiel agency is a foreign corporation and has never complied with the laws of Arizona relating to foreign corporations doing business in Arizona and all its acts are null and void thereby.

## PRESCOTT LODGE ELKS INSTALL NEW OFFICERS

(From Thursday's Daily.)

An impressive scene was that of Tuesday night when District Deputy Grand Exalted Ruler, A. J. Herndon, officiated in installing new officers of Prescott Lodge of Elks, No. 330, the occasion being pronounced as one of the most notable in the history of the order.

The past year was reviewed and it was one of the best in the history of the lodge. Membership had grown and financial burdens were lifted. Appropriate and timely addresses were delivered by Grand Lodge representatives and the incoming officers.

As has been the custom for many years among Elks, the annual May Day ball was decided upon, and the following committee was appointed: Chairman—J. A. Jaeger, Lester Ruffner, W. A. Lawler, Prof. C. L. Miller, F. A. May and D. A. Seaman, of Prescott, and C. P. Wingfield and E. J. Frenette of Humboldt, and W. J. Mayer and F. L. Wilson of Mayer. The committee in charge stated that this social function, will surpass any annual event, of its kind, ever given in Prescott.

Officers installed to serve for the ensuing year are the following:

E. A. McSwiggin, Exalted Ruler; W. A. Lawler, Leading Knight; F. A. Mays, Loyal Knight; F. L. Haworth, Lecturing Knight; W. H. McKean, Secretary; W. H. Timmerhoff, Treasurer; Ed. Roberts, Esquire; E. J. Dillon, Teller, and H. C. Story, Trustee.

P. J. Keohane, the retiring Exalted Ruler, was also duly and regularly installed as the Grand Lodge Representative, and will represent Prescott Lodge at the Convention of the National Grand Lodge, which will be held in Atlantic City, New Jersey, the second week in July.

## INFLUENZA FATAL TO EDWARD BERRY NATIVE OF PRESCOTT

(From Friday's Daily.)

It will be learned with universal regret in this community that Edward Berry, a native born of Prescott, aged about 39 years, died at Phoenix on Wednesday night from influenza, where he had been visiting with his mother and sisters. Previous to his last illness he had been afflicted with this disease, and was again in fine health, only to again become stricken. The deceased was an unusually industrious man, and in this section enjoyed an excellent name, all his business dealings being of an upright nature. He came from one of the best known of pioneer families of this county, and a sad feature of his death is that an aged mother is left to mourn his loss.

Three sisters survive, Mrs. R. D. Jones, Mrs. J. C. Johnson and Mrs. Edward Matthews, of Phoenix, while a brother, Henry Berry, resides in Prescott, and a halfbrother, J. J. Hankey, is at Phoenix.

## BUCKSKIN BEAUTIES AMONG NAVAJOS ARE DEADLY FOR DEER

PHOENIX, Ariz., April 16.—The time honored fashion of buckskin leggings for Navajo brides in Cochise county has reduced the stock of deer in alarming proportions, according to State Game Warden J. V. Prochaska.

According to Prochaska, it takes three deer skins to make the proper kind of leggings for a Navajo belle about to wed and as there are several hundred weddings a year the deer, in and out of season, have been dwindling rapidly. As a result the game warden has taken to the war path and has announced that leggings, or no leggings, promiscuous deer killing must stop.

## FIGHTING WEED VENDOR GETS STIFF JOLT

(From Friday's Daily.)

Los Angeles papers contain an account of a fine of \$150 and a jail sentence of 150 days given a young man named M. Cochon for raising and selling the notorious marijuana weed that is used in mixing with tobacco. California and Arizona have rigid laws on the statute books prohibiting the growing of this product on account of its injurious effects on the mental faculties, the limited use of which invariably places one in the mood to go on the "warpath." This weed is used quite extensively by Mexicans, and instances are known in this city and Jerome where those of this race to be arrested have had on their persons quite a supply of this "fighting brand."

Cochon made his home in this section for some months and was under suspicion of peddling marijuana, which was grown at his home in Los Angeles. It is stated that a Mexican uprising at Jerome some months ago was greatly influenced by those addicted to this weed, and that the slayer of ex-Sheriff J. R. Lowry was addicted to the use of marijuana to such an extent as to be classed as a fiend. Cochon stated he was a Mexican, but those in this city who claim to know say he is of French parentage.

## THE "WILD CAT" REAL THING AT RANGER

(From Friday's Daily.)

Writing from Ranger, Texas, the new oil field, Harry Purcell, recently of Jerome, has the following to say:

"It is funny what peculiar situations confront one in this country in direct contrast with mining. For instance a 'wildcat' oil proposition here is perfectly legitimate, and every exploration going on to bring in a well is so classed. All wells producing today had the above title tacked onto them before the flow was determined. Will also mention this fact, that there are today approximately 250 wildcats here and every one is rated as legitimate, and they don't have the odium that is linked to wildcats in mining, but just the opposite. All of us here from Yavapai camps at first laughed over this appellation and its significance, but now we are used to it. So if anyone hears of a Jeronite having a wildcat in this country, please place a different construction on the game of digging into mother earth than prevails in the real mining country."

Purcell also states that prohibition is as tight as leadpipe in the oil land. If a bootlegger is unfortunate enough to be "caught with the goods" there is no court action, and the guilty one disappears, and no one knows where he goes. Several are "missing" in consequence and nothing is said about it.

## BIG PLACERING MOVEMENT TO RESUME

(From Saturday's Daily.)

That novel placer mining movement on Lynx creek at the wagon crossing, known as the drag line excavator system, after a temporary suspension, is to resume at once. George E. Marshall, of San Francisco who introduces this method of gold recovery, returned to the city yesterday, and it is learned that during his absence he was at Honolulu, completing a government contract, and being released therefrom proposes to devote all his time henceforth to the gold movement.

In initial tests of the application of his unique principle of placer recovery, it is said results were gratifying, and it is due to the determination that active operations on a permanent basis will follow.

The plant is segregated into different units, but all work in conjunction. During test runs made those who witnessed the action of its mechanical features were impressed with the large number of cubic yards of ground handled. Of the values returned only Mr. Marshall is conversant, and his resuming is significant that this old placer zone for the first time is to be practically operated and made to pay.

## WORKERS SELECTED VICTORY LOAN CAMPAIGN

(From Saturday's Daily.)

The Fifth Liberty Loan, known throughout the Nation as the Victory Loan will open on April 21st. Plans for the work in Yavapai County are well underway. E. S. Clark, is the county chairman and Grace M. Sparkes secretary of the committee. Throughout the county the following chairmen were appointed by Mr. Veile before his departure for New York, and all have signified their willingness to get in the harness and work with energy to make this loan a success.

Ash Fork, including Cedar Glade, Charles Burton. Camp Verde, including Aultman, Beaver Creek and Clear Creek, D. S. Butler and Joe J. Taylor.

Cherry Creek, L. N. Wombacher. Childs, F. Z. Brown. Clarkdale, including Oak Creek and Red Rock, Ray C. Lane. Copper Basin, including Senator, A. B. Peach. Crown King, D. B. Gemmill. Cottonwood and Verde, J. N. Foster, Jr.

Congress Jct., Harry Henderson. Dewey, Charles Stanton. Henrietta, J. T. Trebilcock. Hillsdale, E. R. Pembroke. Humboldt, including Blue Bell and DeSoto, E. S. Smith.

Jerome, H. W. Lewis. Jerome Jct., G. W. Hankin. Kirkland including Wagoner, Peoples Valley and Walnut Grove, E. K. Dutcher.

Mayer, H. C. Walters. McCabe, Elmer Wells. Seligman including Nelson, James A. Pitts.

Stoddard, George Johnson. Skull Valley, Egbert Dutcher. Turkey, James P. Cleator. Simmons-Walnut Creek, Mrs. J. W. Stewart.

Prescott Farms Company, Paul Lodge. Advertising posters and other data have been sent throughout the county. The Boy Scouts put in a busy day posting the big V's and on Friday they will spend the entire day putting up the large posters and distributing advertising matter.

No advice has yet been received as to Yavapai County's quota. The Victory Liberty notes will be dated May 20th and payments required will be as follows: 10 per cent with application on or before May 10th; 10 per cent July 15th; 20 per cent August 12th; 20 per cent September 9th; 20 per cent October 7th; 20 per cent November 11th; with accrued interest on deferred installments. Payments in full can be made on May 20th, the ten per cent required with application having been duly paid on or before May 10th. Payment in full will also be allowed with application but without rebate of interest, but there may be a limitation as to the maximum amount of notes upon which such payment will be accepted. Payment can also be completed on any installment dates.

First coupon on the notes will be payable at a sufficient time after the last installment date to allow for delivery of notes. Denominations of the notes will be as heretofore. The publicity committee for the county is composed of Ernest Douglas, of the "Verde Copper News," Lyle Abbott, of the "Journal-Miner," E. A. Rogers, of the "Courier," Lt. Moore, editor in chief of the West's Record, H. B. Watson, "Yavapai" and the secretary of the county committee.

The banquet was well enjoyed by all. After the banquet the members adjourned to the church building, where Mr. Stevens presented lantern slides, and gave a very interesting lecture, concerning the missionary movement, both foreign and domestic.

The Epworth League and Sunday Schools will take part in this drive by contributing one eighth of the money they raised. The idea of using the juvenile departments, is to get ready for the next century. The winning of a small child will count more in the long run than that of a wealthy business man, according to the speaker.

F. G. H. Stevens of Los Angeles, finished the evening at the banquet by answering questions on the centenary question.

## THIS ARIZONAN WAS TOO QUICK FOR THUGS

(From Saturday's Daily.)

Athletic training at the University of Arizona, polished up in football, proved advantageous to Franklin Grinnell in Los Angeles, a short time ago when he foiled a pair of hold-ups on 16th street by the clever use of his fists and his quick foot action. His account of the affair as related to an officer was that he was accosted by the two, one of whom had a gun in hand, when he let go a straight from the shoulder jab that sent the gun man to the pavement and the weapon went somewhere. Grinnell then hit the trail at a lively clip, and ran into an officer, with whom he returned to the place.

Grinnell left Jerome about six weeks ago when the coppers closed down and since that time had been working at Randsburg, Cal. He was visiting that night with a young lady cousin and was warned on leaving the home to be on the lookout for thugs. It would appear that he heeded the advice.

## OLD PECK SILVER MINE AGAIN SCENE OF LIVELY TIMES

(From Friday's Daily.)

Frank W. Giroux, superintendent of the Peck Mining Co., was in the city yesterday from the camp, and stated all departments were now in action, weather conditions being favorable for the first time in three months.

Moving in of machinery over the new wagon road from the switchback, assembling of the new mill and other reduction apparatus, and getting the mine in shape to be reopened, would now proceed without further interruptions.

A large line of incidental work is outlined, and the new operators are provided with abundant funds, a close corporation being in charge.

## TO GAS PESTS

PARIS, April 11.—Poison gas that worked such havoc during the war will be utilized for a very different and beneficent purpose in the future, it is said in scientific circles. Gabriel Bertrand of the Pasteur institute informed the Academy of Science today that he had discovered a method by which such gas might be supplied for destruction of caterpillars and injurious larvae which had worked destruction on tree growths in the country districts during the past few years.

## RED CROSS IN SIBERIA

SEATTLE, April 9.—Twenty-four men and women Red Cross workers are scheduled to sail from here April 22, for service in Siberia.

## Queen Suit Is Delayed While Court Settles Theory Of Collectable Damages

(From Friday's Daily.)

## METHODISTS TO RAISE 105 MILLION

(From Saturday's Daily.)

How the Methodists of the United States propose to raise \$21,000,000 a year for five years, for their various lines of missionary work, was discussed at a banquet here last night by representatives of the Centenary Movement, who are touring the state in its behalf.

Rev. A. D. Adkinson, of Los Angeles was the speaker of the evening. He gave an interesting story of the beginning of the Centenary movement which started in 1819. Many are opposed to the missionary movement, but, for that movement the church would not have been started in America as early as it was.

The movement now on foot is to raise money for use in foreign missionary work, and for the boys who have been fighting, and wish to return home and finish their scholastic education. The estimated amount is \$21,000,000 a year for the next 5 years.

The Epworth League and Sunday Schools will take part in this drive by contributing one eighth of the money they raised. The idea of using the juvenile departments, is to get ready for the next century. The winning of a small child will count more in the long run than that of a wealthy business man, according to the speaker.

## Y. W. C. A. WORK IS TO RECEIVE AN IMPETUS

(From Saturday's Daily.)

Mrs. Grace Sutton Powell of San Francisco, one of the Young Woman's Christian Association National Secretaries, will arrive in Prescott today at 2 o'clock. Mrs. Powell has been assisting the Tucson and Phoenix Y. W. C. A.'s in raising their financial budgets for the past month, also looking over the points in the state where new work might be developed.

She comes to Prescott at the invitation of the Business Girls Club and other leading men and women, who believe the time is ripe for organizing a Y. W. C. A. here. Mrs. Powell will speak on Sunday morning at the Congregational church and in the evening at the West Prescott Methodist church. She is an unusually fine speaker and the citizens of Prescott should hear her.

At 3:30 Sunday afternoon in the Chamber of Commerce rooms, Mrs. Powell will meet the members of the Business Girls Club and all women who are interested for a conference on Y. W. C. A. work. High School girls are also especially invited to this meeting as one of the Y. W. C. A. Girls' Workers will accompany Mrs. Powell.

While here Mrs. Powell will visit Whipple Barracks and make a thorough survey of the city. If the conditions warrant it she will probably recommend that work be immediately opened here. Should this be done it is very probable that rooms will be equipped and a trained secretary placed in charge. For this purpose funds would partly be provided from the national treasury. The National Board of the Y. W. C. A. feel that the funds raised in the last war drive should be used in cities contiguous to army posts and that because of her liberality in giving, Arizona should be considered in this connection. It is hoped that our citizens will recognize the importance and necessity of this work in Prescott, and give Mrs. Powell every encouragement during her visit here.

Try a Journal-Miner want ad.

But two witnesses preceded Ferguson on the stand. They were Goldman, president and Gooch, an officer of the Copper Queen. They testified regarding the negotiation of the contract whereby the Stoddard Milling Co., was to handle the Queen ore up to 100 tons a day, and to alleged failures on the part of the mill officers to live up to their part of the contract.

An interesting point of law was brought up in the afternoon session when Superintendent Ferguson was asked by the plaintiff's counsel to detail for the jury, the expenditures the Queen had been put to in order to deliver its ore to the mill. Counsel for the defense interposed an objection to the question on the ground it called for a conclusion from the witness. It was also not relevant, according to Mr. Bullard, what the Copper Queen had spent in order to prepare to carry out the contract. The objections being overruled, Mr. Bullard then said another objection would be made to this and any similar questions. Mr. Lewis stated the objection, and it was on the ground that the plaintiff now had arrived at the point in the case where it was necessary to elect which of two principles it would pursue in its effort to effect recovery of damages. He said the complaint sought damages based on the cost of operations at the Queen, and also on the basis of their hypothetical profits, in case the contract had been lived up to. The two matters were proper enough in the pleading, but no plaintiff could hope to recover both on its costs and profits, because the latter were figured by subtracting a net from a gross. He said the plaintiff was apparently trying to double-shot the turn.

The time limit on arguments was forgotten while the attorneys leaped to the fray. Judge Sweeney was bombarded with authorities. Both sides seemed to have plenty of 'em. The court retired to chambers to digest the mass of opinions, and Bailiff Bill Poulson was kept busy for a half an hour tugging heavy tomes into the judge's rooms. About four o'clock, the court came on the bench and announced a ruling in favor of the plaintiff, and the testimony of Mr. Ferguson was ordered admitted.

## ANOTHER LARGE GOLD NUGGET IS FOUND

(From Saturday's Daily.)

Discovery of a nugget valued at from \$250 to \$350 by a Mexican placer miner on Fools creek, east of Octave about eight miles, was reported yesterday by Samuel Ellsworth, a mining man of California who is looking over the country. He was so informed last week by Mexicans, and the lucky finder left at once for Phoenix, where it is stated the nugget was deposited in a bank of that city to be
